All applications on this website are donationware (freeware). **They are gratis, freely usable, and no registration is necessary. You may download, copy, and distribute them at no charge; however, you may not modify the software for distribution. You can use them for as long a time as you want.** If you have a problem with one of these applications and can't find an answer in the help (menu Help in the application), if you have suggestions to improve them, or if you want more info, don't hesitate to consult the forums or contact me directly by [email](#) .

ONYX

ONYX

OnyX is a multifunction utility for OS X which allows you to verify the startup disk and the structure of its system files, to run miscellaneous tasks of system maintenance, to configure some hidden parameters of the Finder, Dock, QuickTime, Safari, Mail, iTunes, login window, Spotlight, and many of Apple's applications, to delete caches, to remove a certain number of files and folders that may become cumbersome, and more.

MAINTENANCE

MAINTENANCE

Maintenance is a system maintenance and cleaning utility for OS X which allows you to run miscellaneous tasks of system maintenance: repair permissions, run periodic scripts, reset Spotlight's Index, rebuild the LaunchServices database, delete Application, Font and System cache, check the status of the hard disk, and more.

DEEPER

DEEPER

Deeper is a personalization utility for OS X which allows you to enable and disable the hidden functions of the Finder, Dock, QuickTime, Safari, iTunes, login window, Spotlight, and many of Apple's applications, and more.
