

System Requirements

The list of requirements that must be met for the Secunia PSI to function correctly are:

Supported Operating Systems (32 & 64 bit):

- Microsoft Windows 8
- Microsoft Windows 7
- Microsoft Windows Vista SP 1 or later
- Microsoft Windows XP - SP 3

Privileges

To install and run the Secunia PSI you require administrative privileges.

Connectivity

Access to Secunia's encrypted servers via SSL (<https://psi.secunia.com:443/>) and access to Microsoft Windows Update servers, see also [Software Requirements](#) below

Software Requirements

The latest version of Microsoft Update. You can determine whether or not you are running the latest version by visiting

update.microsoft.com

with Microsoft Internet Explorer, while logged in as the Administrator. If you are able to check your system for missing updates through this tool, your system should function properly with the Secunia PSI.

Hardware Requirements:

There are no additional hardware requirements. If your computer runs any of the above mentioned Operating Systems, then Secunia PSI should work.

File size: 5.329 Kbytes
Total users: 7,629,358
New users (24h): 1,681

Older versions of the Secunia PSI can be downloaded [here](#).

PSI 2.0
