DVDFab HD Decrypter

Get Mac version

DVDFab HD Decrypter is a cost-free and simplified version of DVDFab DVD Copy and DVDFab Blu-ray Copy which can copy some old DVDs and Blu-rays to blank disc or to the hard drive on your computer, but only in "Full Disc" or "Main Movie" mode. It is one of the always free portions of DVDFab. After the trial period or the license of DVDFab has been expired, users can use HD Decrypter for free. It can work under no-internet-connection environment, and needs ImgBurn or Nero Burning Room installed for DVD/Blu-ray copy or backup.

Works as a **DVD decrypter** and **Blu-ray decrypter**, DVDFab HD Decrypter is a free Blu-ray and DVD backup tool allows you to copy Blu-ray and DVD to blank discs or hard drive.

- ★ Copy just some old DVDs/Blu-rays
- ★ Copy DVD/Blu-ray to blank disc or hard disc
- ★ A free portion of DVDFab

Download
Size: 52.1 MB

Overview of HD Decrypter

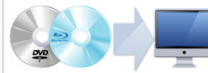

DVDFab HD Decrypter is part of DVDFab DVD Copy and DVDFab Blu-ray Copy. Works as a **free DVD Decrypter**, it can copy some old DVDs/Blu-rays to blank disc or hard drive. It enables you to either copy the full disc or just copy the main movie. However, if you want to compress a DVD9 into a DVD5, it can't be done using this free product.

You are free to edit with its so many settings and finally get a special and perfect copy, and you will be happy with its quick speed and fabulous effect.

It supports both NTSC and PAL DVD/Blu-ray, and allows you to preview title with an internal video player.

What's more, it's free. Always free as a portion of DVDFab. Here comes a **DVD decrypter review** offers more information about DVDFab HD Decrypter.

Key Features Specification

Copy DVD/Blu-ray to Blank Disc or Hard Drive

★ Copy DVD to blank disc or hard drive

As a powerful DVD decrypter, DVDFab HD Decrypter can copy some old any DVDs to blank disc or to hard drive on your computer.

★ Copy Blu-ray to blank disc or hard drive

HD Decrypter copies some old Blu-rays to blank disc or hard drive on computer.

Professionally Customize and Personalize Your Copy

★ Copy either full disc or main movie

Two copy modes available: Full Disc and Main Movie. So you can freely copy either the whole content of the disc or just the longest movie title.

★ Multiple settings

There are multi-settings for you to edit your DVD/Blu-ray copies. For example, you can specify your preferred output audio track and subtitle; you can change DVD playback order, remove annoying PGCs; you can also set the title playback order.

Very Convenient to Operate

★ Provide you utmost convenience

There are multiple languages for you to choose from for the application;

The UI could be customized freely to suit your using habit; you can

preview title with a built-in video player; and the copy progress can be viewed in detail.

★ Easy to operate

The interface of HD Decrypter is very intuitive, so you can finish the whole operation well step by step under its guide without any obstacles, even if you are a novice.

Editor Reviews

There are a ton of ripping options out there, but I always come back to DVDFab—it's well kept up, always gets through the latest encryption, and stays free as long as you don't want any advanced features

Whitson Gordon from Lifehacker

If you want to archive your DVDs to your PC without losing any quality at all then try out the great free DVDFab HD Decrypter.

Tony Williams from onetipaday.com
