See it in action:

### Find something unexpected

The Discover feature gives you top-quality news and entertainment from around the globe. Enjoy new content from a variety of categories and read articles from your region, in your language.

### Browse with style

Opera's interface combines precision and quality. Integrating modern style with powerful features, Opera gives you the freedom to truly open the web and explore.

### Search and navigate easily

Opera has one intuitive, powerful location for searching and navigating the web. Search using multiple providers and view site suggestions as you type.

## Speed up on slow networks

Opera Turbo compresses pages for faster, all-conditions browsing. It helps you stay online when your connection slows down.

## Organize your favorites

An enhanced Speed Dial groups your top-visited sites directly on a custom start page. Quickly search and access your favorite content with refined searching and grouping options.

## Keep what you find

Found something you'll want to come back to? The Stash feature captures a page with one easy click and organizes your pages into a simple, sophisticated list. Scan your Stash in a resizable page preview or search what you've saved, by keywords.
