## Anvi Smart Defender Pro – Protect Your PC from Malware

## Take a tour

Watch this video to see more features of Anvi Smart Defender 2.3 Pro on how it works to protect your computer from various threats online.

[More about Anvi Smart Defender 2.3 PRO features](#)

## All-round Positive Guard

To enable your computer system immune to mushrooming threats, Anvi Smart Defender v2.0 integrates all-round positive guard including file system guard, network guard and the newly added anti-hacker and anti-exploit. It can not only protect your PC system from damages and loss due to infections but can also prevent your computer getting infected via remote access guard, remote execute guard and anti-exploit.

## Anti-hacker

Various hacking activities flood the cyberspace. And the newly added Anti-hacker in this version will check all related system services and settings to ensure the computer system is safe from potential hacker attacks. If any risky items detected, one-click solution is provided to help fix all, while you can also choose the item to ignore as per your personal needs.

"A clean and nice GUI. Very good and easy to use. It takes low system usage resources and low memory RAM usage. That's really good. And finally, it really blocks all malware! It keeps to update database daily.."

AWARDS

CNET

"Anvi Smart Defender is a free anti-malware tool that offers multiple scan levels as well as cloud-based scanning and extras that clean and optimize your PC and repair issues caused by malware and garbage files..."

PC Magazine

"The product installs quickly and easily, and the necessary initial update doesn't take long. Anvi's slick user interface gets right to business, with three big buttons offering a quick, full or custom scan."

Users' Review

Anvi Smart defender

★★★★★

"Thank you man for offering great alternative to other AVs. And I think your Anvi is much better as I scanned using other av, they failed to detect some malicious threats. But your Anvi did it. Thanks man."
