YOUR PRESENTATIONS – YOUR WAY, SEAMLESSLY

Say goodbye to traditional slide and bullet point presentations. With SlideDog you can combine almost any media into one seamless multimedia presentation.

UNIQUELY DESIGNED PRESENTATIONS

Why limit yourself to one presentation medium when you can combine PowerPoints, Prezis, PDFs, and many more elements into one easy-to-create playlist. With SlideDog, you never have to switch between different programs during your presentation.

SEAMLESS PLAYBACK

No conversion, no downgrade, no surprises. All your elements show in their original formats, and display just like you'd expect them to. Once the playlist is loaded, your content plays back as though it's just one seamless file.

FILE SUPPORT Hover or click on the icons to see what file types SlideDog supports.

CONNECT WITH YOUR AUDIENCE

Share a live stream of your presentation at the click of a button. Anyone with a web browser can join your audience in real-time.

LIVE SHARING

With Live Sharing you can broadcast your presentations in real-time. Send your participants a link to your online channel and with a click they're in, watching from their own web browser.

REMOTE CONTROL

Control SlideDog from any web-enabled device. Use the SlideDog Remote app to switch between presentation files, change slides, pause videos, and more.

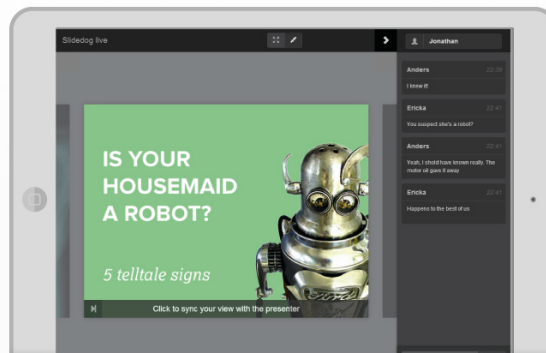

“ I was looking for an elegant solution to switching between PowerPoints for an event and once again the internet delivered

— Robert Carr (@robertwcarr)

MAKE YOUR PRESENTATIONS TRULY INTERACTIVE

Engage your audience with interactive polls; solicit questions or comment your slides, and collect feedback on your presentations.

LIVE CHAT

Engage participants by adding a live chat or discussion. Receive questions and comments from the audience and respond to whom you want, when you want.

AUDIENCE FEEDBACK

How did your presentation go? Was your audience engaged? Is there something you can do better? Get anonymous feedback using your own questionnaire.

This is just the tip of the iceberg for what SlideDog can do. See the full features:
