

OkayFreedom VPN. A simple VPN service enabling private, uncensored web surfing.

Download OkayFreedom for free

Access websites blocked in your country

Use all of your favorite websites when abroad

Access the web securely – even in public hotspots

Surf the Net anonymously

Protect your privacy on the internet

Surf with servers in 12 different countries by using OkayFreedom VPN

How does OkayFreedom VPN work?

Upset when you can't view a video online? With our VPN-service OkayFreedom this problem is now history. But OkayFreedom VPN is also the right choice when you just want to prevent someone from following your traces on the internet.

OkayFreedom VPN recognizes whether content, videos and entire websites are restricted in your country and automatically directs you over a server which enables you to view the content.
