# VirtualBox

## Download VirtualBox

Here, you will find links to VirtualBox binaries and its source code.

### VirtualBox binaries

By downloading, you agree to the terms and conditions of the respective license.

- **VirtualBox 5.1.22 platform packages.** The binaries are released under the terms of the GPL version 2.
  - [Windows hosts](#)
  - [OS X hosts](#)
  - [Linux distributions](#)
  - [Solaris hosts](#)
- **VirtualBox 5.1.22 Oracle VM VirtualBox Extension Pack** [All supported platforms](#)  
Support for USB 2.0 and USB 3.0 devices, VirtualBox RDP, disk encryption, NVMe and PXE boot for Intel cards. See [this chapter from the User Manual](#) for an introduction to this Extension Pack. The Extension Pack binaries are released under the [VirtualBox Personal Use and Evaluation License \(PUEL\)](#).  
*Please install the extension pack with the same version as your installed version of VirtualBox:*  
*If you are using **VirtualBox 5.0.40**, please download the extension pack [here](#).*
- **VirtualBox 5.1.22 Software Developer Kit (SDK)** [All platforms](#)

See the [changelog](#) for what has changed.

You might want to compare the [SHA256](#) checksums or the [MD5](#) checksums to verify the integrity of downloaded packages. *The SHA256 checksums should be favored as the MD5 algorithm must be treated as insecure!*

**Note:** After upgrading VirtualBox it is recommended to upgrade the guest additions as well.

### User Manual

The VirtualBox User Manual is included in the VirtualBox binaries above. If, however, you would like to take a look at it without having to install the whole thing, you also access it here:

- [User Manual \(HTML version\)](#)
- [French User Manual](#)

You may also like to take a look at our [frequently asked questions list](#).

## VirtualBox older builds

The binaries in this section for VirtualBox before version 4.0 are all released under the [VirtualBox Personal Use and Evaluation License \(PUEL\)](#). As of VirtualBox 4.0, the Extension Pack is released under the [VirtualBox Personal Use and Evaluation License](#) and the other packages are released under the terms of the GPL version 2. By downloading, you agree to the terms and conditions of the respective license.

- [VirtualBox older builds](#)

## VirtualBox Sources

The **VirtualBox** sources are available free of charge under the terms and conditions of the [GNU General Public License, Version 2](#). By downloading from the below links, you agree to these terms and conditions.

- **Source code**
- [Browse the source code repository](#)  
This is the current development code, which is not necessarily stable.
- [View the latest source code changes](#)
- Download the VirtualBox OSE about logo in higher resolutions: [1024x768](#), [1600x1200](#).
- **Checking out from our Subversion server.**

```
svn co http://www.virtualbox.org/svn/vbox/trunk vbox
```

This is the current development code, which is not necessarily stable.

After getting the sources in one of the ways listed above, you should have a look at the [build instructions](#).

Please also take a look at our [licensing FAQ](#), in particular regarding the use of the name VirtualBox.

## Pre-built VirtualBox VMs

There are some pre-built VMs designed for developers and the curious over on the [Oracle Tech Network](#) site.
