

Thanks for trying Google Chrome!

1. Click **OK** or **Save File** in the window that appears.

Don't see a window? [Click here.](#)

2. Select **Downloads** from the Tools menu in Firefox.

A window displaying your downloads will appear.

3. **Double click** the product in the Downloads window.

Your software will now install automatically. If you need help, [click here.](#)

The Google Chrome installer should complete in seconds and start your new browser automatically.
