

# Skype 2.8 for Mac OS X

Exciting new ways to stay in touch.

[Download now](#) Skype 2.8 for Mac OS X

## New in this version

### Skype Access

Pay as you go public WiFi access so you can stay connected wherever you are. Simply pay per minute with [Skype Credit](#).

### Screen sharing

Share what you're seeing on your computer over a free call. Show someone exactly what you mean instead of typing to explain it.

### Better sound and video

A step up in call quality that you'll really hear – and see.

## Main features

- Free Skype-to-Skype calls.
- Call phones and mobiles, send SMS.
- Free instant messaging.
- Voicemail.
- Free video calls.
- Forward calls to a phone when you're offline.

Skype-to-Skype calls, video calls and instant messaging are free, any time of the day or night, anywhere in the world. Call phones and mobiles and send SMS messages at great value [Pay As You Go](#) rates, or call unlimited\* to certain countries [with a subscription](#).
