How do I install Skype?

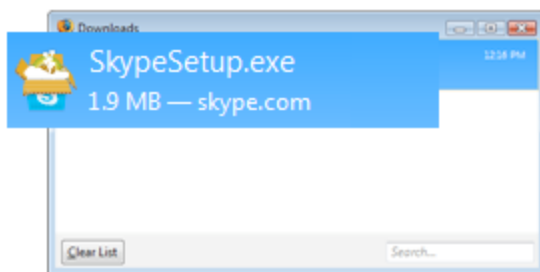

Save the Skype Setup Application

A window will open asking what you want to do with a file called **SkypeSetup.exe**. Click **'Save File'**.

Run the Skype Setup Application

When the download is complete, click on the SkypeSetup.exe. file from the Mozilla Downloads window to open the Skype Setup application. Alternatively, you can open it directly from the location you saved it, usually your desktop.

Follow the Setup Wizard

The Skype Setup Wizard will appear and guide you through the rest of the installation.

Launch Skype

After the installation has finished, you can open Skype at any time by clicking the Skype icons located either on your desktop or in your system tray (this is the found at the bottom right of your screen).
