Trip Report
New York City Organization

John Braniff arranged the opportunity for me to make a CHOICES presentation to the District Managers Meeting of the Office of Neighborhood Government.

The eight District Managers represent the organizational fiber of ONG, itself an urban research project.

Despite an earlier lack of interest and their high effort, low pay situation the DMs did grasp the obvious connection between CHOICES and their local government work. Materials sufficient to organize 700 hosts was distributed. They have requested and received more.

John Cimarosa, Room 604, 51 Chambers Street, is the key contact.

Each District Manager will now be contacted re the distribution of X amount of free books to community groups per McManus' latest Foundation coup!
