Thanks to Terry Grossman!

Sweet, fellow Burner and mobile app developer, whom I collaborated with to combine my music guide with his resource for eplaya events to create an epic Burner tool for YOU! And please use this tool like a kid anticipating Christmas, as you prep, plan and trek to the playa, Be in the NOW when you are Home and follow your heart and soul to your next destination.

Mad props and humble gratitude to Paul Sardoch!

Freelance graphic designer extraordinaire and Portland Burn family! Thank you for graciously sharing your magical creativity and talents to transform all the music data bytes and bits into this beautiful 2012 guide and for making it seem so effortless. You are a treasure!

And Michael, my Schmoop!

Thank you for being my rock and for adoring all of me, even the parts I sometimes don't adore myself.
