LIBRARIAN THANK YOUS!

Laura Baalman, badass Burner, incredible Wordpress/SQL developer extraordinaire who took on the RSL Database redesign this year and rocked it! If you need rock star developer, she's it!

Christopher "Xtopher" Cilley and Terry Grossman - thank you for the Time to Burn app iOS/Android that includes all eplaya submitted events AND the RSL Music Guide content.

And a HUGE DUSTY A\$\$ HUG and Fuck Yeah! high-five thank you to the amazing k8, long-time Burner, Ranger, and phenomenal designer for jumping in and saving the day at the last minute to take on designing this beautiful guide for us all to enjoy after my original designer caught the 'VID.

1:30AM Steven Gray

Burning Man is a lot of fun...but it can also be incredibly taxing on your body. Combining Burning Man with whatever you choose to put in your body can amplify these issues, so Mitchell Gomez (he/him) the executive director of dances afe.org put together some safety tips for you:

Hydrate & replenish those electrolytes. Drink at least one bottle of water per hour and supplement with electrolytes. Be careful not to drink too much water alone as this can cause hyponatremia (low sodium in the blood caused by over-hydrating without replacing electrolytes), which can be just as dangerous. As always, it's best to know what you are choosing to put in your body to prevent any unintentional consequences.

Chill out. Dancing and exhausting your body for several hours can result in dehydration or heat exhaustion. Be sure to take a break and cool down regularly.

Use protection. If you are sexually active, come prepared with an option for birth control and/or protection from sexually transmitted infections (STIs). We all know we are more likely to engage in sexual activity when out with our friends in a relaxed and social environment. It's not pretentious to come prepared; it's responsible and pragmatic. Safe is sexy! You can pick up condoms at Zendo Project on-playa.

Protect your hearing, too. Sound levels at sound camps can be as high as 115+ decibels, which can cause damage within a few seconds. You can pick up earplugs at Zendo Project on-playa.

Look out for others. If you see someone having a difficult time or who looks like they need help, ask them. Medical, The Zendo Project, and the Black Rock Rangers are also all here to help!

MONDAY PM-TUESDAY AM CON'T.

HOW TO SPEAK TO LAW ENFORCEMENT

Your best defense against citation or arrest may be politeness. Nothing requires you to incriminate yourself, and an officer may cite you for revealing any illegal behavior.

If you wish to exercise your right to be silent, say so out loud.

Officer, my name is [give your real name].

Am I free to go?

If I am not free to go, please explain to me your probable cause for stopping me.

I politely decline to give you any further information.

I do not consent to a search of me or my belongings, tent, vehicle, or camp.

WHEN GAN THE POLICE STOP & SEARCH ME?

Police may briefly stop to ask for your identity without probable cause of a crime.

Probable cause means an officer must be able to point to specific facts indicating criminal activity.

Police may not require you to answer additional questions, detain or search you without either consent or probable cause.

An officer may ask your consent to search you or your belongings. Your refusal to give consent does not constitute probable cause for a search.

This is not legal advice. This is information discussing the general state of the law. We urge you to consult a lawyer for legal advice about a particular legal question or issue you may have. If you believe you are coerced into giving consent for a search, or that you are searched without probable cause, you may wish to contact the ACLU of Nevada at <u>aclunv.org</u>.
