

Negro P H workers

November 2, 1938

Dear Dr. Sundwall: During November of last year I had a letter from Mr. Albert H. Wheeler, who was at that time a student in the Department of Clinical Laboratories at Michigan. It was our understanding that Wheeler is qualified for the position of laboratory technician in a grade A hospital. Such a situation is now open in a southern institution, and I desire to offer Wheeler's name if he is qualified for the job and available. Can you tell me anything about his present situation and whereabouts?

Very truly yours,

M. O. BOUSFIELD

M. O. Bousfield, M.D.
