Southern University
 Scotlandville, Louisiana
 September 29, 1939

Mr. G. M. Reynolds,
 Director for Fellowships
 Julius Rosenwald Fund
 Chicago, Illinois

Dear Mr. Reynolds:

I had intended to write you providing most of the information requested in your letter of September 21, but due to the great haste that was attendant my departure from Ann Arbor I failed to do so. I shall proceed to supply the information in the outline form your letter suggests.

Present Address: Southern University, Scotlandville, Louisiana

Institutional Connection: Affiliated with Southern University

Rank: Instructor of Physics and Mathematics. This position carries a salary of \$190.00 a month for ten and one-half months, plus lodging. This represents a substantial increase over the salary I received at St. Augustine.

Present Status of work towards degree: The Ph. D. degree in Physics was conferred upon me at the June, 1939 convocation. ✓

Publications: The following articles and the thesis are being prepared for publication in the Journal of Chemical Physics. I shall be glad to forward reprints to you:

1. "The Infra-red Spectrum of MgO In the Region of 2 μ to 20 μ ."
2. "The Infra-red Spectrum of Methyl Amine and A Study of Hindered Rotation."
3. "The Infra-red Spectra of A Number of Heavy Tetrahedral Molecules with Substituted Groups In the Spectral Region 2 μ to 20 μ ."

I should like to take this occasion to express my gratitude to the committee for fellowships in making the past two years of study and research possible. It is my intention to demonstrate my appreciation by seeking to make such creative contributions as will be deemed worthy in light of the training I have been favored to receive.

Sincerely yours,

James R. Lawson
