

Negro Physicians
(Course)
Perry WB

March 25, 1937

Dear Dr. Perry: I expect to be in Boston
on Monday or Tuesday,
April 12 or 13. Let me know where I can find
you.

I have taken the opportunity
of sending your qualifications to several people
and I hope you have heard from some of them.
We lost one real good chance, as the United States
Public Health Service appointed a Negro in Venereal
Disease just before I got a letter down there
announcing your qualifications. You will be in-
terested in knowing that the Illinois State Health
Department is putting three colored men in a venereal
disease program this week.

Very truly yours,

M. O. BOUSFIELD

M. O. Bousfield, M.D.
