

City Hall
Atlanta, Georgia

July 17, 1936.

Dr. M. A. Thomas,
213 Ashby St. SW,
Atlanta, Ga.

Dear Dr. Thomas:

I am returning to you the copy of study which you made of some 525 students at Washington High during the spring. Dr. Kennedy and I have gone over this material very carefully and you will recall that I talked with you at length when you were at the office of the Board of Education recently. I am also sending you copies of correspondence with the WPA in regard to a project for the coming year. I have talked with Dr. Kennedy concerning the possibility of having the Health Department employ you to help Dr. Morse with the Public School Children. He tells me that there are no funds available for additional medical help at the present time.

Yours truly,

H. REID HUNTER
Superintendent
In Charge High Schools
