

WILLIAM GEORGE HAAG, JR.

Assistant professor of Anthropology
University of Kentucky, Lexington, Ky.

Archaeology

A top man
 But study of canine remains
 while valuable scientifically is
 scarcely a "significant Southern
 social problem"
 I'd give him A if we had
 several fellowships open to
 all southerners

(Applicant applying for pre-doctoral fellowship (\$1,000) at the University of Michigan)

1946 MM

Name William George Haag, Jr. Field: Archaeology
Assistant professor in Anthropology, University of Kentucky
901 Aurora Avenue, Lexington 21, Kentucky

Plan of Work To visit museums and institutions throughout the eastern United States wherever Indian dog remains are available for study and measurements, and to osteometrically analyze this material and compare it with published accounts of dogs found in archaeological sites in other parts of the world, thence to University of Michigan where a definitive treatise will be prepared.

Requests grant for one year beginning July, 1946. Wishes to work toward Ph.D. at the University of Michigan under the supervision of Doctors W. H. Burt and J. B. Griffin.

Personal Data Born Henderson, Kentucky, August, 1910. Age: 35
Married. Draft Status: Discharged

Undergraduate Work University of Kentucky, B.S., 1932.

Graduate Work University of Kentucky, M.S., 1933.
" " , part-time student, 1939-40.
University of Michigan, nine months, 1935-36, 1941-42.

Experience Assistant anthropologist, University of Kentucky, 1934-35, \$750; assistant geologist, University of Michigan, 1935-36, \$600; junior archaeologist, Tennessee Valley Authority, Knoxville, Tennessee, 1936-37, \$1,800; assistant mammalogist, University of Michigan, 1941-42, \$600; assistant professor of anthropology and curator, Museum of Anthropology, University of Kentucky, 1937- (military leave 6/42-9/45), \$2,400.

Accomplishments American Anthropology Association; Society of American Archaeologists; Sigma Xi; Phi Sigma; Sigma Gamma Epsilon; American Society of Mammalogists; Southeastern Archaeology Conference.

Research: Assisted in analysis of cultural remains from various Kentucky shell heaps; studied and described ceramic remains from all archaeological sites in Pickwick Dam Basin of northern Alabama; currently investigating occurrence of Pleistocene mammal remains in Nicholas County, Kentucky.

Publications: See attached sheet.
