Dear Dr. Bousefield,

see
↓
Dr. Peter Marshall Murray

of New York City has informed me by telephone that you have asked him to notify me that a position in the Venereal Disease Control program in Alabama is about to be vacant.

Last winter I studied Syphilis and skin diseases at Post Graduate Hospital, New York City for 3 months. I am very interested in the control of Syphilis and public health work in general and would like you to consider me as an applicant for this or any other position in that field. I have filed application for a four-month course at New York Univ. beginning in October.

Thanking you for remembering me,
Very truly yours,
Alvah Jenkins (U.S.)
