Anthropology

Very good letter from Herbert Agar  
But damn little else to go on.  
An award would be a  
gamble and at best would  
be a start toward Ph. D which  
would probably take at least  
3 years. What would she do  
the other years?  
Could she finance herself  
this first year - and let us  
see if she can prove her stuff?
