

Negro Physicians

October 18, 1937

Dear Dr. Peterson: I am sorry that your letter of September 29 reached me too late to make it possible for me to talk with you when I was in New York attending the meetings of the American Public Health Association. I do not know when I am coming back.

I am very much interested in your having returned to this country and in your registration in the Institute of Public Health at Columbia University. Let me know what you have in mind.

Very truly yours,

M. O. BOUSFIELD
