

## JOURNALISM

A tough question

This is a well prepared man,  
 dean of an important department,  
 found to influence many students  
 and to have some general influence  
 in Southern journalism

I dislike these vocational departments  
 But!

Of the two projects I should be  
 interested only in the European  
 proposal. That kind of experience  
 might help develop an influential  
 person

A-

(maybe letter B)
