Music

I don't see where this gets us.
He doesn't want to become
a musical artist or composer
but a music-educator
That is a byproduct field and
I don't see any absolutely
outstanding destination -
this cheap.

He wants to start a three
year course toward P.T.
Hasn't troubled to get admitted
anywhere (out of 4 colleges he is
willing to attend). If we started
him we'd have to carry him
through, entirely.
See no reason to send to music jury

being seminar
