

April 8, 1948

Dear Mr. Beech: Enclosed is the check and accounting in connection with the first meeting of the Fellowship Committee. May we count on you for April 17? If there are any reservations you would like to have made at this end, do let me know.

I have not forgotten your request for biographical material on some of the Fellows. The final Review of the Fund is being prepared just now and it contains a section on the Fellowship program including several biographical sketches. If you are not in a hurry for the material, I would prefer to send you - in a month or two - that part of the Review manuscript dealing with the Fellowship program. It will be much better written than anything I can do.

Sincerely yours,

H. R.
