

Negro Physicians

~~CONFIDENTIAL~~

April 7, 1936

Dear Dr. Perry: Your letter addressed to Mr. Embree has been read with great interest and has come to me for attention.

You indicate in the last paragraph of this letter that information relative to your assigned work in North Carolina will come to us from the North Carolina Health Department and also from Dr. Lloyd J. Thompson. I should be pleased to have information from them relative to your work if you are willing to see that it is sent with the understanding that such a request does not indicate a certainty of commitment upon the part of the Julius Rosenwald Fund to assist you in further studies. I am very much interested in the possibilities of your work.

Very truly yours,  
M. O. BOUSFIELD

M. O. Bousfield, M. D.
