Dear Dr. Rankin: May I acknowledge your letter of May 22nd, regarding Dr. J. S. Perry of Lumberton, North Carolina. Of course, your endorsement is sufficiently important to warrant serious consideration. Our problem here is attempting to make a small budget cover a multitude of needs. I would be very much more interested in Dr. Perry's application if there was some assurance of his being placed where his training would be of value. There appears to be no such assurance at the present time.

Very truly yours,

M. O. BOUSFIELD
