I have written to Howard Mehany and toillard Universities.

Are there any vacancies in the medical colleges where your association is interested in supplying men who desire to teach; and also in assisting them in procuring advanced degrees? At Provident Hospital do there exist any vacancies in Cardiology or in internal medicine, where a residence is available?

Is your association interested in Mehany or in the development of a medical college atillard and are attempting to supply men with suitable training?

I am very desirous of associating with an institution as will afford me teaching facilities or where I may eventually be
