Dear Doctor Howard: Your letter to Mr. Stern, as well as a recommendation from Father Johnson, has been received here. Without in any way committing the Fund to an interest in your case, let me suggest that you communicate with Dr. John W. Lawlah, Medical Director of Provident Hospital in Chicago, and see whether you can secure a residency there for your last two years work in surgery. I should be pleased to hear from you after you have made such an inquiry.

Very truly yours,

M. O. BOUSFIELD
