My dear Dr. Bausfield:

I am inclosing a statement of my professional experience, the ones checked were engaged in since I completed my work for the Bachelor of Science degree in Public Health Nursing at Teachers College, Columbia University.

Since my letter to you earlier in the summer I have received a Federal position in Washington as Field Nurse. The present work only gives me security. I should like to know more about your work at Luskagee. From the description Mrs. Mabel K. Stangers gave me, I am very much interested. I shall appreciate your aid

your Committee evaluating my experiences  
and preparation to determine my eligibility  
for the work you plan at Turkegee.

May it add that I was born in Georgia  
and received my high school education there.  
I believe I understand some of the difficulties  
which must be faced in my state where  
there are racial barriers.

Very sincerely yours,  
Lazarene Miller Payne.
