

Teacher of Industrial Arts, Alabama College

Industrial Arts

are interesting projects - the general  
use of industrial arts & crafts in  
the schools.

His grades are not excellent  
~~statement~~ from his chief sponsor  
is reserved - by no means enthusiastic  
Sounds like a man to watch  
and use in our Southern Rural  
Program - but as Prof Ray points  
out a year of research is probably  
not a very sound value

B
