

Dr. and Mrs. James Weldon are so anxious for me to grow in my work, you have shown unusual interest! I do not wish to disappoint the three fine persons above mentioned. On the other hand I must be allowed the chance to grow ^{and} develop.

My relationship with my companions (the nurses), is pleasant but my conscious demands release from one loathsome situation. If I could see you you would understand above.

I wish to leave - I have made no other plans - It would be better to give up my beautiful profession rather than experience the mental hazard I know.

No - I have not talked with Mr Dent - would rather not - useless

Please regard this note confidential and reply as soon as you are able to.

Sincerely yours
 Allie J. Sims
