Dear Dr. Bousfield,

Your letter describing the Slossfield Center in Birmingham, Alabama was most interesting. I had the opportunity of talking to Dr. West about it this past week-end and can say without exaggeration that I view the project with enthusiasm. It does seem an unusual opportunity for an outstanding piece of public health work. I am impressed by the combined efforts of those interested to ensure the success of the project. Should I be selected to administer this Center my concern for the success would be fully as great as that of the sponsors.

My plans for June are to remain in Boston until the 3rd, stop in New York on the 4th on my way to the Conference for Negro Tuberculosis Workers in Washington, D. C. June 5, 6, and 7. After that I expect to be in New York. These plans can be altered to meet yours or Dr. Dowling's convenience.

With best regards to you, I am

Very truly yours,

J. S. Peterson
