In addition to the above allotments, lump sum appropriations have been made by the Fund for (1) school-houses from seven-teacher to twelve-teacher types and (2) teachers' homes, specific allocations to be made to states by approved applications, after a careful study of each individual project.

The Fund will also consider giving, for the year 1930-31, one and one-half times the regular allotment to the first Rosenwald school constructed in any county having 10% or more Negro population. There are now 101 such counties in the South with Negro populations ranging from 10% to 72%, which have not built a single school by aid of the Fund. This special offer is made with the hope of stimulating a large number of these counties to erect schools of three-teacher type or larger the current year.

The attached plan for distribution of aid shows for the year 1930-31 the schedule of allotments for all types of construction and some general requirements.
