

Fellowship Com

March 27, 1942

Dear Doctor Will: You will remember that you agreed to talk to Roy Stryker about Gordon Alexander Parks, the candidate in photography, with a view to seeing if FSA might be able to take him on. Fred Wale has already written Mr. Stryker about Parks, and samples of his work have been sent. In addition, Jack Delano of Mr. Stryker's staff recently met Parks and knows about the case. I am including your digest sheets on Parks, since he gives a record of his experience.

By separate cover we are shipping you the digests on all of the candidates on the active list, since I thought you might want to look at them again before the Hampton meeting. Digests for the following candidates were sent to you before we knew you were coming out here, and are on file in your office: Frank Goodwyn, Thomas B. Ham, and Robert Ramsey in Group 1; Edward P. Dreyer and Arthur S. Link in Group 2.

Sincerely yours,

WILLIAM C. HAYGOOD
