My dear Mr. Paty :

If you consult ^{ack file 6} your file of applications you will find that I applied for a Scholarship about 1 1/2 years ago. In the mean while the investigating Committee wrote me that my application was acceptable and I would be notified later if any awards were made. Please let me know if I am still eligible and what I can do to ^{have not} a ^{re-}application renewed and considered. As my application will show I am gain fully employed in the field of Public Health in the Public School system of Louisville Ky. (my address there as on the application; 1502 W. Walnut St): however I am more than anxious about earning my Master's degree and enter into a larger field of Health Service which from all indications

will be possible in Louisville in a short
time. Please let me hear from you as
soon as possible and tell me what can
I do. Does the Fund make grants for
Student Loans?

Most Sincerely, I am
Valla O. Dudley.

stated as above.)
