Dr. M. O. Bousfield, Medical Director
Liberty Life Insurance Company
35th Street and South Parkway
Chicago, Illinois

My dear Dr. Bousfield:

I am writing to solicit your cooperation and assistance in obtaining a fellowship from the Julius rosenwald fund for the completion of serological research started by Dr. John B. West, (who is now District Health Officer in Central Harlem, New York City), and myself here at Tuskegee; which work we were unable to continue due to the removal of tuberculous patients from this facility.

Attached hereto is a copy of a letter sent to Mr. Edwin K. Embree which is self-explanatory.

Whatever you may do to foster this work will be appreciated very greatly. May I hear from you?

Sincerely yours,

Ruth M. Easterling (M. D.)
Ruth M. Easterling, M. D.
