Director for Fellowships

Dear Mr. Paty:

I am glad to get the chance to read the memorandum prepared by Gould Beach for Dr. Odum. He is revealing his quality already, and he ought to go far. I think I would certainly give him an A on it if for no other reason than it demonstrates that he reads.

James S. Pope is maintaining his excellent style and the insight which marked his earlier articles -- the first ones I saw. One thing made clear by them is that he is bringing to the English scene more than a simple reporter's curiosity. He has a rich background that serves to distill the utmost from his experiences.

I am returning the clippings to your files.

Sincerely yours,

Charles S. Johnson
