Dear Mr. Haygood:

Many thanks for your very interesting letter of April 10th. I am certainly glad to know how many capable candidates for fellowships there are, because I think that that is a good omen for the future--the more capable and gifted Americans there are, the better and broader will be America!

As you probably know by this time, I finally got the package of scores off to you. I sent it by Railway Express on Friday, April 12th. The reason for the delay is that we telephoned the previous week to have someone from the Express office pick up the package here, but all during the week no one came, and it was at last necessary for us to drive down to headquarters with it. These days, almost everyone seems to be unconcerned about doing the things that would normally be expected. I hope it reaches you safely, and in good time.

As always, I send all good wishes to you!

Sincerely,

William Grant Still

P.S. Please let me know if there is anything else I can do.
