April 12, 1937 Final meeting of Committee

If he proposes to do freshening, it would be better to have him do something he can get his teeth into than to be engaged in this vague "look see" program that he outlines. Much of the material he can get from books, but he needs to feel institutions. He needs to settle down to some kind of an intellectual job where he would get the gossip and hear the talk of the institution; he would get this as a byproduct better than he would get it by frontal attack.

He would hardly go to Oxvord as an undergraduate but he might go there and meet the group at All Souls as a "gentleman commoner" attend some lectures and get the feel of the place. Goodheart and Holsworth were mentioned.

Granted \$1000 and an additional \$500 if necessary.
