

Fellowship Com

8

February 25, 1938

Dear Mr. Moe: The enclosed digests just about complete the white fellowship group. Two or three others will follow just as soon as the reference material is complete.

Following your suggestion, I have indicated a tentative grading after availing myself of some "expert" testimony. The A's are well in line or above our fellows selected last year. Even in the A- and B group are candidates who will compare favorably with our 1937 selections. The X category refers to people whose proposals fall somewhat outside our field of immediate interest, who are over-age, or await expert opinion in the fine arts.

The applications for renewals will be sent along in one group. There has been some delay in getting these together, but we will send along everything we have by Monday's mail. These should reach you Tuesday or Wednesday at the latest.

Warm personal regards,

Sincerely yours,

RAYMOND R. PATY
