

Candidate **William McKinley King** Special Field **Agriculture**
 Assistant Professor of Landscape Gardening
 and Agricultural Science, Florida A. and M. College
 Tallahassee, Florida

Plan of Work

The program of study I have proposed pertains to plant physiology. The problem when completed will afford one the opportunity to see the resulting reaction of plants to various stimuli such as factors of light intensity, soil fertility, and soil moisture.

Seeking M. S. from Iowa State College; admitted. Duration of study twelve months to begin autumn, 1938. Will return to present position.

Digest of Application

Born May, 1902, Cynthia, Kentucky. Married, one child.

B. S. from Hampton Institute, 1929.

Experience: Florida A. and M. College, instructor, 1929-38, \$1,120.

Applied JRF 1937; turned down.
