Dear Raymond:

I have just received another letter from Dr. M. L. Jackson of Valdosta, Georgia, stating again his desire for a fellowship or some other form of hospital appointment in which he can secure further experience and training. I believe you have in your files some communications from him and from me concerning his desire in this matter.

Nothing on
him

Do you believe anything could be done for him? Will you not, at any rate, inquire through your many contacts to see if you can dig up anything which might be of help to him?

Sincerely yours

Russell H. Oppenheimer
Russell H. Oppenheimer, M.D.
Dean

RHO/AT

will see in Atlanta
during board meeting
