Director for Negro Health

Chicago, Ill.

Dear Dr. Bousfield:

I was naturally quite disappointed on receiving your last letter about most recent developments in regard to the Slossfield Health Center. Since I had talked with Dr. Huber, our assistant dean, about the project and since he had written a rather glowing letter of recommendation to Dr. Dowling, I took the liberty of informing him of the latest turn of events. He spoke of writing you further on the subject, though I felt that it was others who might need convincing. I mention this merely to explain anything you might hear from Dr. Huber.

I expect to be in Boston until June 3rd and in Washington the 5th, 6th, and 7th. From the 8th of June on I shall be in New York at 303 East 106 Street, New York City, Telephone Leghigh 4, 3288.

Since my work in New York will be of a part time nature only, I am quite convinced of the necessity of seeking work in public health elsewhere and shall start making contacts on my return to New York.

Thank you for your interest in my behalf.

Very sincerely,

J. S. Peterson, M.D.
