Fellows

November 12, 1941

Dear

I am writing to you as a former Rosenwald Fund Fellow to enlist your aid in helping us locate individuals who may be promising fellowship material for 1942. Applications are coming in regularly, but we are, of course, eager to receive as many as possible from persons of superior caliber. Since you are so familiar with our program, we feel that your recommendations would be especially valuable. As you know, we are interested not only in graduate students and academic people, but also in journalists, ministers, labor leaders, and others in positions of social influence and potential leadership. Your interest and co-operation will be greatly appreciated by the Committee on Fellowships. For your convenience I am enclosing some announcements which you may pass along to those whom you wish to acquaint with our grants.

Sincerely yours,

WCH:MLJ
