Music - education and composition

Very strong letters speaking of /  
 his creative ability in composition.  
 I'm not sure the Ph. D. with major  
 in music is the best course  
 for him. If he has real talent,  
 "spark of genius" as McKay says,  
 maybe he should plunge straight  
 into music study & composition.  
 At any rate he should be sent  
 with a favorable prognosis to the  
 music jury.
