Negro Physicians (cores)

October 17, 1939

Dear Doctor Whitfield: I am very sorry that it was necessary to defer your visit to Chicago. After I had left town I received a telegram that at least a temporary shift among members of the staff at Tuskegee had been made which, for the time being, would care for that situation. I am not sure that this will prove permanently satisfactory, and I hope that when you are next in Chicago you will be kind enough to make it possible for me to talk with you.

Sincerely yours,

M. O. BOUSFIELD

M. O. Bousfield, M. D.
