ROY MAXWELL HALL, SR.

Principal, McEachern School (on leave of
absence)

Education

Difficult to take heed of anything here
His Syracuse professor speaks
lightly of him (as do his associates
of Georgia) Questionnaire studies
seem to run wooden

I mark him an A- just to get
his name into the discussion

Plan of Work To develop a procedure and technique whereby high schools of the South may appraise the extent to which they are achieving common objectives; more specifically, the problem is to develop a follow-up questionnaire that could be used periodically by each high school to determine the extent to which their objectives are finding expression in what graduates do and in what they believe.
