

ELWOOD BERNARD BOONE

Assistant Dean of Men
Virginia State College for Negroes

Education

I don't see anything here to
take hold of - Only one non-local
reference, and that is from
a prof. of physical ed. (at Michigan)
in whose word as to scholarship I would
put much faith - He speaks rather
meekly -

Preparing for the teaching of
health education by study of
health classes of 1858-65
seems to me going pretty far
back for soup (as the man said
when offered extra soup)
