1939

LAWRENCE B. WILSON

27

Professor of Political Science and
Economics, Philander Smith College

Political Science

The only statement from a man with whom
he has worked is from Berdall of
Illinois. His report is curious "one of my
very excellent students without regard to
race" then "he has almost completely
overcome such peculiarities of speech etc
commonly associated with the Negro"!

Hymeman who might have been an
undergraduate says "best Negro student I had,
but not nearly of the caliber of the better
white students"
